You can add photos,
videos, or links to your
posts by dragging links
directly to the share box.

Circles are like Following
people on Twitter.
People do not have to
follow you.

- Mention people in your posts by adding + or @ in front of their name.
- Send Private messages to people by only sharing your post with them, disable reshare.
- Clicking the timestamp on a post will display that post with a permalink.

Green: People who are not in your circles may see this post.

Blue: Only people in your circles can see this post. Unless it's shared.

Hotkeys:

Space = Scroll down Stream.
Shift Space = Scroll up Stream.
J = Single post down scroll.
K = Single post up scroll.
Q = jump to chat.
Return = Start Comment
Tab, Return = End Comment.

To prevent people from sharing
your post, click the arrow at the
top-right of the post and choose
"Disable reshare."

Clicking the +1 button on a post
is the same as "Like" on Facebook.
Clicking the +1 button again, will
remove your +1.

- Using +1 on a post will not list the post on your +1 page. Using +1 on the web will.
